PROFILE

Highly skilled and dedicated Full Stack Developer with 1.5 years of experience in a professional setting, coupled with an additional year of freelancing experience. Seeking a challenging Full stack developer position where I can utilize my expertise in modern technologies, such as CSS, JavaScript, React, Vue, Nuxt, Node.js, MongoDB, Docker, and my ongoing pursuit of learning DevOps. Additionally, I have a keen interest in Ethereum and Mobile Development with React Native.

WORK EXPERIENCE

Full Stack Developer

Kennect Technologies   Feb 2022- Current

- Demonstrated leadership skills by overseeing a team of developers, providing guidance, and ensuring project success.
- Responsible for managing and coordinating technology projects, ensuring efficient delivery and meeting with actual requirements.
- Implemented best practices and coding standards to improve the overall development process.
- Developed and maintained web applications using modern technologies, such as NuxtJS with Vuetify as Framework and for backend NodeJS with MongoDB .
- Actively learning DevOps methodologies to streamline development and deployment processes.

Freelancer   Jan 2021 - Feb 2022

- Successfully completed various freelance projects, demonstrating proficiency in full-stack development.
- Collaborated with clients to understand their specific requirements and translate them into functional web applications.
- Developed responsive and user-friendly web interfaces using HTML, CSS, and JavaScript frameworks with firebase as a backend.
- Ensured adherence to project timelines and communicated effectively with clients to maintain a positive working relationship

PROJECTS

Gadget360   https://gadget360-digital-shop.onrender.com
